## Byung Ihn Choi

**Dept. of Radiology, Chung-Ang University Hospital  
South Korea**

---

Dr. Choi is a clinical chair professor of radiology at Chung-Ang University medical center and a professor emeritus of Seoul National University, College of Medicine. He is a Past chair of the Department of Radiology at the Seoul National University Hospital, and is also a former president of 8 national and international societies including The Korean Society of Radiology (KSR), Asian Oceanian Society of Radiology (AOSR), the Asian Society of Abdominal Radiology (ASAR) and Asian Federation of Societies of Ultrasound in Medicine and Biology (AFSUMB), and member of executive committee of 7 International organizations of Radiology including International Society of Radiology (ISR) and World Federation of Ultrasound in Medicine and Biology (WFUMB). He is an honorary member of 12 international and regional societies including RSNA and ESR. He is also an honorary fellow of 5 prestigious college of radiology including American College of Radiology (ACR). Dr. Choi is a world renowned abdominal radiologist, particularly in the field of hepatobiliary imaging. He is a tireless and prolific clinical and scientific researcher, devoted teacher, and an outstanding clinician. Dr. Choi has authored more than 500 peer-review scientific papers and 31 textbooks, and presented more than 380 lectures internationally.

**Research Interest:**

1. Evaluation of abdominal imaging techniques including Ultrasound, CT, MRI and fusion imaging
2. Development of new abdominal radiology procedures
3. Development for early detection of abdominal cancer including liver, biliary tree, pancreas and gastrointestinal tract
4. Evaluation of quantitative diagnosis of abdominal cancer by functional imaging technologies
5. Mentoring fellows and residents in research of abdominal radiology
