

Dai Yuk Ling Eunice MBBS (Hons), MRes(Med), FRCR

**Department of Imaging and Interventional Radiology, Prince of Wales Hospital, Hong Kong
Hong Kong**

Clinical Experience

2012-Present Resident, Honorary Clinical Tutor
Department of Imaging & Interventional Radiology, Prince of Wales
Hospital

Professional Qualifications

2015 Fellow of the Royal College of Radiology (FRCR)

Selected publications

- 2010 Dai YL, Luk TH, Siu CW, Yiu KH, Chan HT, Lee SWL, Li SW, Tam S, Fong B, Lau CP, Tse HF. Mitochondrial dysfunction induced by statin contributes to endothelial dysfunction in patients with coronary artery disease. *Cardiovascular Toxicology* 2010;10:130-8
- 2011 Dai YL, Luk TH, Yiu KH, Wang M, Yip MC, Lee SWL, Li SW, Tam S, Fong B, Lau CP, Siu CW, Tse HF. Reversal of mitochondrial dysfunction by coenzyme Q10 supplement improves endothelial function in patients with ischaemic left ventricular systolic dysfunction: a randomized controlled trial. *Atherosclerosis* 2011;216:395-401.
- 2015 Dai YL, Wang K, Cheung TCY, Dai DLK. Neuroradiology of non-Alzheimer's disease dementias. *Hong Kong Journal of Radiology* 2015;18:58-73.
- 2015 Wang K, Dai YL, Cheung TCY, Dai DLK. Neuroscintigraphy of non-Alzheimer's disease dementias. *Hong Kong Journal of Radiology* 2015;18:74-86.

2016 Dai YL, Bhatia KSS, Yeung KH, Ahuja AT, Yeung DKW, Yuan J, Vlantis AC, King AD. High specificity of Intravoxel Incoherent Motion (IVIM) MRI parameter thresholds for differentiating benign and malignant salivary gland tumours. ActaRadiologica (under review)

Selected Conference Papers in Radiology

2016 European Society of Head and Neck Radiology 29th Annual Meeting
Oral Presentation: High specificity of Intravoxel Incoherent Motion (IVIM) parameter thresholds in differentiating benign and malignant salivary gland tumours

Winner of 2016 Olea Award in Head and Neck Imaging

2016 24th Annual Scientific Meeting of Hong Kong College of Radiologists
Poster Presentation: Hybrid DynaCT guided hookwire localization of pulmonary lesions prior to surgical resection in the same hybrid operating theatre – a pioneer one-stop technique

2016 Winner of The Hong Kong Society of Interventional Radiology Best Poster Award

24th Annual Scientific Meeting of Hong Kong College of Radiologists
Oral Presentation: Direct MR shoulder arthrography with axial traction to evaluate superior labral anteroposterior (SLAP) tears

2016 Winner of Best Preferred Paper Presentation

The Hong Kong International Sialendoscopy and Salivary Gland Conference
Oral Presentation: High specificity of Intravoxel Incoherent Motion (IVIM) parameter thresholds in differentiating benign and malignant salivary gland tumours

2017 Winner of Best Paper Award in Oral Presentation

European Congress of Radiology 2017
Oral Presentation: Combination of diffusion weighted imaging and dynamic contrast-enhanced MRI improves differentiation of benign and malignant orbital masses

Invited Speaker at Radiology Conferences

2016 ENT Imaging with the Masters
- Post-operative thyroid – ultrasound surveillance
- Hands on ultrasound workshop

2016 The Hong Kong International Sialendoscopy and Salivary Gland Conference
- Imaging for obstructive salivary gland diseases – an update
