## **Masatoshi Koga** PH.D, M.D

**Chief Stroke Neurologist, Division of Stroke Care Unit  
National Cerebral and Cardiovascular Center (NCVC), Osaka, Japan  
Japan**

---

### Education:

- 2001 Ph.D., Faculty of Medicine, Kyushu University, Fukuoka, Japan
- 1994 M.D., Faculty of Medicine, Hiroshima University, Hiroshima, Japan

### Professional Experience:

- 2010-present
- 2007-Dept of Cerebrovascular Medicine, NCVC
- 2002-Research Fellow, Neuroimaging Unit, National Stroke Research Institute, Melbourne, Australia (Prof Geoffrey A Donnan)
- 1997-Resident, Cerebrovascular Division, Dept of Medicine, NCVC

Masatoshi Koga, MD, PhD is a Head of Stroke Care Unit at NCVC, Osaka, Japan. I trained in a residency program for cerebrovascular diseases at NCVC. I spent 2 years at the National Stroke Research Institute in Melbourne as a research fellow to conduct penumbral imaging researches under the supervision of Prof Geoffrey Donnan. My principal research interests include acute stroke treatment and brain/vascular imaging using MRI and ultrasound. I am a core member of SAMURAI studies, THAWS trial (tPA treatment for wake-up stroke) and NeCST (a recently established network for clinical stroke trials in Japan).
