Dr. Mo was born on 27. Nov. 1953. After graduated from Medical college, National Taiwan University, he received gastroenterology specialist training at NTUH. Since then, he had extensive interest in the field of gastroenterology and hepatology especially in interventional endoscopy and ultrasound. In early life of his professional carrier, he had interest in biliary-pancreatic diseases. In such a circumstance, he is one of the pioneer of therapeutic ERCP in Taiwan. He also applied the ultrasound-guided technique to treat the hepatobiliary diseases such as US-guided PTCD, PTCS and tumor ablation. He had been elected as president of Taiwan pancreatic association from 2009 to 2012. Dr. Mo had published about 80 peer-reviewed scientific papers since 1988. He is now Vice-president of Show-Chwan health care system.
