### Professional Experience

1993-1996: Resident (Urology), University of Occupational and Environmental Health

1997-2000: Ph.D. student (Urology), University of Occupational and Environmental Health

2000-2002: Postdoctoral fellow (Neurobiology & behavior), Rockefeller University, NY, USA

2002-2006: Urologist and Urogynecologist, University of Occupational and Environmental Health

2007-2009: Associate director of Urology department, Kyushu Rosai Hospital

2009-2010: Associate director of Urogynecology and OB/GYN in Kameda Medical Center

2010-present: Director of Urogynecology Center in Kameda Medical Center

I am a urogynecologist for the treatment of female pelvic disorder. I perform transvaginal as well as laparoscopic surgery for the treatment of pelvic organ prolapse and urinary incontinence. I routinely use pelvic ultrasonography for diagnosis and evaluation of surgery effects.
