

Jaw Lin Wang

**Institute of Biomedical Engineering, National Taiwan University, Taipei, Taiwan
Taiwan**

Dr. Jaw-Lin Wang is a Professor at Institute of Biomedical Engineering, National Taiwan University. After receiving his PhD from the Department of Engineering Mechanics, The Ohio State University in 1996, he completed his post-doctoral fellowship training at the Department of Rehabilitation and Orthopedics, Yale University. In 1999, he was appointed as an Assistant Professor at the National Taiwan University and awarded Full Professorship in 2007. He then went on to serve as the Director of Institute of Biomedical Engineering, National Taiwan University from 2011 to 2014, and is now the Vice Director of Research and Development Center for Medical Devices, National Taiwan University.

Dr. Wang's research interests include spine biomechanics, disc regenerations, and innovative computer assisted surgeries. He has published more than 90 peer-reviewed papers in elite spine research and clinical journals as well as hundreds of international conference papers. His outstanding funding track record was recognized and awarded by the National Health Research Institute, Taiwan. He also served as a government reviewer/consoler for institutes such as the Ministry of Science of Technology, Ministry of Economics.

He is a long time member of the Orthopaedic Research Society, USA, and was awarded College of Fellows of American Institute for Medical and Biological Engineering (AIMBE) in 2015. He is currently the president of the Taiwanese Society of Biomedical Engineering. He bridges the gap of biomedical research between Taiwan and the international society. He successfully hosted many national and international conferences. In addition to his academic achievement, he was funded by the Ministry of Economics to develop a spinal medical device which subsequently led to the successful establishment of a medical device

company.
