## **Susan Campbell Westerway** AMS, Ph.D, MAppSc , DMU BASC

**WFUMB Councilor**  
**Australia**

---

### **Biography:**

Sue was ASUM President 2014-2016 and has been a WFUMB Councilor since 2015. She is Adjunct Associate Professor in the School of Dentistry & Health Sciences at Charles Sturt University in NSW Australia and is on the Health Expert Standing Panel for the Australian Government.

Sue has been involved in medical ultrasound since 1975, when she worked on Australia's first commercial grey scale system and has had the privilege of being associated with some of the industries earliest luminaries. In 1981 Sue was awarded a Churchill Fellowship to study echocardiography at major heart institutions in the USA & London and on her return to Australia helped implement scanning practice protocols and standards. With a major interest in obstetrics, her research work has included fetal growth / ethnicity & fetal biometry and in 2000 she created the fetal biometry charts for an Australian population. In 2012 Sue was awarded the ASA Researcher of the Year. More recently Sue has become a worldwide advocate for infection control in the clinical ultrasound environment, being Chair of the WFUMB Infection Control Survey Taskforce

**WFUMB 2017 TAIPEI**

The 16<sup>th</sup> World Federation for Ultrasound in  
Medicine and Biology Congress

Sue is a tutor & examiner for many Australian & international universities & colleges, a traveling educator for international aid projects, author of numerous journal articles. & has an extensive national & international speaking program.
